EANM'10 Vienna – congress website now online

We cordially invite you to visit the  [EANM'Vienna Website](#) which is now accessible online.

Please make sure to note the key dates for the upcoming EANM congress:

Deadline for submission of abstracts: April 11, 2010
Notification of acceptance of abstracts: May 21, 2010
Deadline early registration: May 28, 2010
Deadline advanced registration: October 1, 2010
(after this date onsite registration only)

The EANM'10 Preliminary Programme will shortly be sent by surface mail to all EANM members and further stakeholders. At the same time the EANM'10 Online Abstract Submission will be opened up.

We are looking forward to seeing you all in Vienna!

1st MOLECULAR IMAGING IN RADIATION ONCOLOGY (MIRO) conference – March 18 -20, 2010, Brussels

Make sure to follow an excellent scientific programme while meeting your colleagues and making great new contacts at the upcoming interdisciplinary **MOLECULAR IMAGING IN RADIATION ONCOLOGY (MIRO)** conference ( [MIRO](#)) 18-20 March 2010 in Brussels.

Deadline for late registration: 17 February 2010

Main Topics:

- Methodological Approaches in Molecular Imaging
- Molecular Imaging for Radiation Dose Painting
- Molecular Imaging to Decipher Tumour Biology
- Molecular Imaging to Personalize Treatment
- New Tracers: Beyond FDG
- State-of-the-art and Future Prospects in the Clinical Use of Molecular Imaging in Radiation Oncology

As joint organizers, EANM and ESTRO (the European Society of Therapeutic Radiology and Oncology) greatly anticipate to welcome you!

ESRR 2010 Early Registration Deadline: February 8, 2010

We would like to reiterate the cordial invitation for participation at the 15th European Symposium on Radiopharmacy and Radiopharmaceuticals (ESRR 2010), Edinburgh, April 8 - 11, 2010, which is jointly organized by the EANM Radiopharmacy Committee and the EANM Drug Development Committee.

Please note the upcoming deadline for early registration: February 8, 2010.

The programme features the following topics:

- PET & SPECT Radiopharmaceuticals
- PET Radiopharmaceutical Chemistry
- SPECT Radiopharmaceuticals
- Therapeutic Radiopharmaceuticals
- New Trends in Radiopharmaceutical Chemistry
- Automation and Miniaturization in Radiopharmacy
- Radiopharmacology
- Radiopharmaceuticals in Drug Development
- Radiopharmacy Practice
- Trends in Regulatory Affairs
- Education and Training in Radiopharmacy

On behalf of the EANM Radiopharmacy Committee and the EANM Drug Development Committee, welcome to ESRR'10! ( [ESRR'10](#))

CME presentations of EANM'09 Barcelona online

in well-established tradition, we are pleased to announce that the presentations of the CME lectures held during the EANM'09 Congress in Barcelona are now available online

 [CME lectures](#) .

The European School of Nuclear Medicine (ESNM) is responsible for all educational activities within EANM and is already working with great dedication on the EANM'10 CME Programme.

Mark you calendars – the EANM'10 CME Educational Objectives will be published in February 2010!

WNU School on Radioisotopes, 15 May – 4 June 2010, Seoul

we would like to bring to your attention that the WNU School on Radioisotopes is taking place in Seoul, 15 May – 4 June 2010.

WNA will accept self-funded applications until 26 February, and they are very eager to attract more candidates from the European Union region.

For any additional information, please contact Serge Gorlin, World Nuclear Association (+44 20 74 51 15 40 or gorlin@world-nuclear.org).

REMINDER: Job Postings on EANM Website

This is a reminder to keep the EANM job postings platform in mind for professional recruitment and career management. The job postings section was created as a platform where both those seeking to hire and potential employees can post their specifications online.

You can easily access this platform under  [www.eanm.org > Information & Events > Job Postings](#) where you will find the menu items "Vacancies" and "Positions wanted".

 ["Vacancies"](#) provides you with the opportunity to post an open position via an online mask. It also lists current vacancies available and detailed information about the particular position when you click further.

If you are looking for a position, then you can define your ideal job and post your resume in the section  ["Positions wanted"](#), so that an employer can easily detect your potential. We hope you will find the candidates you want or the career you want by using EANMs job postings.
